Connector Solutions

Are your Design needs satisfied with the connectors you are using, or do you wish there was something different that would really help solve some of your interconnect problems...?

- Do they have all the features you need?
- Is their technical performance right?
- Will they fit within your limited space available?
- Would a change in materials better suit your application?
- Are you looking for reduced weight?
- Would you like to standardise on one connector style?
- Disillusioned with responses from existing suppliers?
- Do you need quicker delivery leadtimes?

Connector Solutions

The success of our Connector Solutions has been the ability to react to our customers' requirements, turning an enquiry into design concept reality within just a matter of hours

- ❑ Total In-house Design-to-Delivery Service
- ❑ Dedicated Design Support
- ❑ Powerful Autodesk Inventor 3D Solid Modelling
- ❑ Interactive Design Proposals by E-mail
- ❑ Flexible, High Quality Manufacturing
- ❑ Rapid Prototyping
- ❑ Significantly reduced Lead-times
- ❑ Customer Specific Design Protection
